

PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1990) 40, 295-300
©Longman Group UK Ltd 1990

0925-3278/90/00-0-0295/\$10.00

Subject Index to Volumes 39 & 40

A

- A23187 (calcium ionophore)
induction of arachidonic acid metabolism in human neutrophils, **39.227, 40.45**
induction of macrophage cytostatic activity against P815 tumour cells, role of leukotriene C₄ in, **39.283**
Adenomyosis, prostaglandin and leukotriene concentrations in peritoneal fluid of patients with, **39.43**
Adenosine diphosphate (ADP)-induced platelet aggregation, effects of dietary polyenoic fatty acids on, **39.31**
Adrenal fasciculata cells, bovine, arachidonic acid metabolism by lipoxygenase pathways in, **40.93**
Adrenergic system
innervation of human umbilical cord: and prostacyclin producing activity of blood vessels, **39.239**
interactions with prostaglandins in the respiratory system, **40.85**
Age
prostacyclin and thromboxane synthesis changes associated with, plasma cholesterol levels and, **39.65**
urinary excretion of prostaglandins during infancy and childhood, **39.295**
Agranulocytosis, involvement of prostaglandins in, **39.217**
Albumin, transvascular flux in isolated rabbit lungs: effects of neutrophils and phospholipase A₂, **39.167**
Alveolar macrophages
hamster, uptake and channeling of arachidonate in, **40.131**
rat, effect of hypoxia on 5-lipoxygenase pathway in, **39.69**
Aminophylline: effect on plasma leukotriene C₄ levels in patients during an asthmatic attack, **40.285**
Aminopyridazine derivatives: and thromboxane A₂-prostaglandin I₂ balance, **40.143**
Amnion cells at term: pathways of arachidonic acid metabolism, **39.303**
Anaemia, aplastic, involvement of prostaglandins in, **39.217**
Antiprogesterin: stimulation of uterine prostaglandin synthesis, **40.191**
Aorta, eicosanoid synthesis
effect of high density lipoprotein in cholesterol fed rabbits on, **40.211**
effects of nicotine and cotinine on, **40.261**
effects of oxysterols on, **39.11**
influence of tea and coffee beverages on, **40.63**
in rats fed a butter-enriched diet, **40.249**
Arachidonic acid
dietary supplementation with, effects in rats fed a butter-enriched diet of, **40.249**
metabolism of, assay for studying the effects of agents on, **39.105**
Arachis oil, supplementary: and pregnancy duration in rats, **40.255**
Aspirin
and platelet aggregation, **39.319**
and effects in cats of dietary polyenoic fatty acids, **39.31**
and effects of noradrenaline, **39.141**
prostaglandin E₂ formation by rat gastroduodenal tissue following intragastric acid perfusion and injection with, **39.277**
recovery of nasal prostaglandin production after inhibition by, **40.291**

Asthma

- antiasthmatic effects of onions: inhibition of 5-lipoxygenase and cyclooxygenase by thiosulfates and 'cepaenes', **39.59**
plasma levels of leukotriene C₄ during an attack of, effects of hydrocortisone and aminophylline on, **40.285**
Atherosclerosis
influence of high density lipoprotein in cholesterol fed rabbits on, **40.211**
modulation by human lipoproteins of thromboxane A₂ generation in platelets from patients with, **40.57**

B

- Blastocysts, prostaglandin uptake in vivo by, **39.267**
Bleomycin: effect on arachidonyl distribution in hamster alveolar macrophages, **40.131**
Blood: prostaglandins and extracorporeal circulation, **40.1**
Blood vessels
transvascular albumin flux in isolated rabbit lungs, effects of neutrophils and phospholipase A₂ on, **39.167**
umbilical, prostacyclin producing activity in, **39.239**
see also Aorta; Atherosclerosis; Heart; Hypertension; Vasoconstriction
Bopindolol: effects on platelet function in hypertension at rest and during exercise, **40.125**
Brain: cytoprotective effect of iloprost on isolated cortical tissue grafts in rats, **39.203**
Breathing pattern in newborn pigs, effect of prostaglandin F_{2α} on, **40.103**

C

- Calcium
effect on rat platelet thromboxane formation, **40.267**
uptake by uterine strips of, **40.203**
see also A23187
Calmodulin: and free radical generation in human leukocytes by cis-unsaturated fatty acids, **39.27**
Cancer *see* Tumour(s) and *also* individual tumours
Cardiovascular system *see* Heart
'Cepaenes', inhibition in vitro of 5-lipoxygenase and cyclooxygenase by, **39.59**
Chemoluminescence, effect of phospholipase A₂ on, **40.31**
Cholesterol
high density lipoprotein, relationship between 6-keto- prostaglandin F_{1α} and, **39.159**
high density lipoprotein and total, effects in spontaneously hypertensive rats of various diets, **40.17**
oxides *see* Oxysterols
plasma levels of, and age-associated reduction in prostacyclin and thromboxane A₂ synthesis, **39.65**
platelet membrane levels of, sex-related differences in, **40.217**
serum levels of, effect of green tea leaves on, **40.281**
serum levels of, effects of high density lipoprotein in cholesterol fed rabbits on, **40.211**
Cirrhosis, delta-6-desaturase activity of human liver microsomes from patients with, **39.39**
Cod liver oil, extreme decrease of linoleic acid in renal medulla from rats after a diet supplemented with, **39.329**

- Coffee: influence on prostacyclin synthesis by rat aorta, 40.63
 Collagen dose: effect on rat platelet thromboxane formation, 40.267
 Colostrum, human: lipid composition in mothers having followed a diet devoid of either butter or margarine during pregnancy, 40.161
 Corpora luteal membranes, [^3H]prostaglandin $\text{F}_{2\alpha}$ binding to, 40.181
 Cotinine: in vitro effects on prostacyclin and thromboxane biosynthesis, 40.261
 Cyclooxygenase
 activity in human amnion cells at term, 39.303
 assay for studying the effects of agents on, 39.105
 effects in mouse macrophages of N-phenyllinoleamide from toxic oil samples, 39.147
 inhibition in vitro by thiosulfonates and 'cepaenes', 39.59
 localization in human granulosa cells from preovulatory follicles, 39.231
 Cyclosporine nephrotoxicity, prostaglandin deficiency in, 39.83
 Cytokine(s), macrophage: render WEHI-3B tumour cells susceptible to cytostasis by prostaglandins, 40.163

D

- delta-6-Desaturase: in human liver microsomes from patients with liver injury, 39.39
 Diabetes mellitus
 ketoadidosis of, plasma prostanoid levels during, 40.39
 prostaglandin deficiency in, 39.83
 renal thromboxane A_2 synthesis and urinary thromboxane B_2 levels in, 39.47
 vitamin E and platelet eicosanoids in, 40.169
 3-amino-4,6-Diarylpyridazines: effects on biosynthesis in vitro and in cardiac tissue of thromboxane A_2 and prostaglandin I_2 , 39.19
 Dihomo-gammalinolenic acid: in human plasma phospholipids, effect of dietary fish oil supplement on, 40.9
 1,4-Dihydronaphthoquinones: as water-soluble inhibitors of 5-lipoxygenase, 39.255
 Duodenum: prostaglandin E_2 formation in the rat following intragastric acid perfusion, 39.277

E

- Emboli *see* Microemboli
 Endometrium
 prostaglandin and leukotriene concentrations in peritoneal fluid of patients with endometriosis, 39.43
 prostaglandin E_2 and $\text{F}_{2\alpha}$ production in parturient rats, 40.27
 prostaglandin $\text{F}_{2\alpha}$ production in, inhibition by progesterone of, 39.189
 uptake distribution and release of arachidonate from, 39.111
 Endothelial cells, arachidonic acid metabolism in: modulation by polyunsaturated fatty acids during platelet-endothelial cell interactions, 39.197
 Erection, pharmacologically-induced, 40.239
 Estradiol *see* Oestradiol
 Evening primrose oil, dietary
 effects on blood pressure and liver lipids and thromboxane formation in spontaneously hypertensive rats, 39.207
 effects on blood pressure and serum lipids in spontaneously hypertensive rats, 40.17
 effects on primary liver cancer, 40.199
 Exercise, physical
 effects of bopindolol on platelet function in hypertension at rest and during, 40.125
 relationship between 6-keto prostaglandin $\text{F}_{1\alpha}$ and high density lipoproteins during, 39.159
 Extracorporeal circulation, prostaglandins and, 40.1

F

- Fibroblasts, prostaglandin synthesis in: inhibitory effect of polyunsaturated fatty acids, 39.135

- Fish (oil), dietary
 and blood pressure and serum lipids in spontaneously hypertensive rats, 40.17
 and cold-induced vasoconstriction and platelet function, 39.221
 and dihomogammalinolenic acid content in human plasma phospholipids, 40.9
 and linoleic acid in renal medulla from rats, 39.329
 and liver lipids thromboxane formation and blood pressure in spontaneously hypertensive rats, 39.207
 and pregnancy duration in rats, 40.255
 Fluorometric method of determining biological leukotrienes C_4 and D_4 , 39.119
 Formyl-methionyl-leucyl-phenylalanine (FMLP)
 calmodulin-dependent free radical generation in human leukocytes, 39.27
 effect on eicosanoid synthesis in human neutrophils of, role of calcium ionophore in, 40.45
 Free radical generation
 in human leukocytes by cis-unsaturated fatty acids: a calmodulin dependent process, 39.27
 in peritoneal macrophages after in vivo phospholipase A_2 treatment, 40.31
 in thioglycollate-elicited peritoneal macrophages, 40.109

G

- Galactosamine-induced hepatocellular damage, protective effects of 9 β -methylcarbacyclin in, 40.73
 Gamma-linolenic acid (GLA)
 calmodulin dependent process of free radical generation in human leukocytes by, 39.27
 effect on primary liver cancer of, 40.199
 Gastropathy *see* under Stomach
 Glioma cell lines, human, effects of 5-lipoxygenase inhibitors AA-863 and U-60,257 on, 40.117
 Glucose
 induction of insulin from rat islets, inhibition by lipoxygenase-generated eicosanoids of, 40.21
 metabolism in uteri from pregnant rats, stimulation by platelet-activating factor of, 40.79
 Glutathione peroxidase, monoclonal antibody against: in characterization of 12-L-hydroperoxyeicosa-5,8,10,14-tetraenoic acid peroxidase in platelets, 39.75
 Granulosa cells: from preovulatory follicles, localization of lipoxygenases and cyclooxygenase enzymes in, 39.231

H

- Haematocrit, effects of leukotriene C_4 on, 39.247
 Haemodialysis and haemoperfusion, prostaglandins and, 40.1
 Heart
 cardiopulmonary bypass: prostaglandins and extracorporeal circulation, 40.1
 cardiovascular disease
 and defects in the prostaglandin system, 40.227
 and 6-keto prostaglandin $\text{F}_{1\alpha}$, 39.159
 coronary heart disease, modulation of platelet thromboxane A_2 generation by lipoproteins from patients with, 40.57
 thromboxane generation and pulmonary reactivity to arachidonic acid in guinea-pig heart-lung preparation, 40.243
 thromboxane A_2 -prostaglandin I_2 balance in, effect of aminopyridazine derivatives on, 40.143
 thromboxane A_2 and prostaglandin I_2 synthesis in, effects of 3-amino 4,6-diarylpyridazines on, 39.19
 Hepatoma cells, rat: influence of inhibitors of eicosanoid metabolism on proliferation and tumour-host interaction, 39.311
 Heredity: defects in the prostaglandin system, 40.227
 High frequency oscillatory ventilation, reduction of 15-hydroxyeicosatetraenoic acid in tracheal fluid by, 40.177
 High pressure liquid chromatography (HPLC)
 quantitation of leukotrienes C_4 and D_4 by a combination of fluorometric detection and, 39.119

- quantitation of 6-keto prostaglandin $F_{1\alpha}$ by, 39.131
- Hydrocortisone: effect on plasma leukotriene C_4 levels in patients during an asthmatic attack, 40.285
- 12-L-Hydroperoxyeicos-5,8,10,14-tetraenoic acid peroxidase: characterization in platelets by monoclonal antibody against glutathione peroxidase, 39.75
- 15-Hydroxyeicosatetraenoic acid: in tracheal fluid, effect of high frequency oscillatory ventilation on, 40.177
- 13-Hydroxyoctadecadienoic acid, biosynthesis in platelets and leukocytes of, 39.125
- Hypertension
blood pressure and serum lipids from spontaneously hypertensive rats after various diets, 40.17
- effect of bopindolol on platelet function at rest and during exercise, 40.125
- effect on linoleic acid in renal medulla from spontaneously hypertensive rats of a diet supplemented with cod liver oil, 39.329
- effect on liver lipids thromboxane formation and blood pressure in spontaneously hypertensive rats of various diets, 39.207
- prostaglandin E_2 uptake by reno-medullary collecting tubule cells isolated from the spontaneously hypertensive rat, 39.177
- pulmonary, role of arachidonic acid metabolites in induction by foreign body microemboli of, 39.151
- Hypoxia: effect on 5-lipoxygenase pathway in rat alveolar macrophages, 39.69

I

- Iloprost
cytoprotective effect on isolated cortical brain tissue grafts in rats, 39.203
- effect on platelet-activating factor-induced shock in mice, 40.157
- effect on spread of ischaemic necrosis in the hairless mouse ear, 39.63
- effect on stress- indomethacin- and ethanol-induced gastric mucosal damage, 40.13
- Immune system
induction of endogenous arachidonic acid metabolism in human neutrophils by immune complexes, 39.227
- phospholipase A_2 as an *in vivo* immunomodulator, 40.31
- Impotence, eicosanoids and, 40.239
- Insulin
glucose-induced release from rat islets of, inhibition by lipoxygenase-generated eicosanoids of, 40.21
- role of prostaglandins in effect on muscle protein synthesis of, 39.95
- see also Diabetes mellitus
- Interferon γ : effect on prostaglandin E_2 production by mouse Kupffer cells, 40.275

K

- Kallikrein-kinin system: urinary excretion in diabetes mellitus, 39.47
- Kangaroo meat, effects on cold-induced vasoconstriction and platelet function of a diet including, 39.221
- Ketoacidosis, diabetic, plasma prostanoid levels in, 40.39
- Kidney
linoleic acid in renal medulla from rats after a diet supplemented with cod liver oil, 39.329
- prostaglandin deficiency and disorders of, 39.83
- prostaglandin synthesis by, 39.261
- during infancy and childhood, 39.295
- thromboxane A_2 synthesis in diabetes mellitus, 39.47
- prostaglandin E_2 uptake by medullary collecting tubule cells isolated from the spontaneously hypertensive rat, 39.177
- proximal tubule secretion and reabsorption of thromboxane B_2 and prostaglandin E_2 effect on urinary eicosanoid excretion of, 39.323

L

- Larynx, squamous cell carcinoma of, tumour and peritumour prostaglandin synthesis in, 39.53
- Leukaemia, involvement of prostaglandins in, 39.217
- Leukocytes
calmodulin dependent process of free radical generation by cis-unsaturated fatty acids in, 39.27
- 13-hydroxyoctadecadienoic acid biosynthesis in, 39.125
- polymorphonuclear, effects on transvascular albumin flux in isolated rabbit lungs of phospholipase A_2 and, 39.167
- Leukotriene A_4 synthase: effect of hypoxia in rat alveolar macrophages, 39.69
- Leukotriene B_4 (synthesis)
induction by chemotactic peptide and platelet-activating factor of, calcium ionophore enhancement of, 40.45
- induction in human neutrophils with snake venom phospholipase A_2 immune complexes and A23187, 39.227
- in mouse Kupffer cells, effect of interferon γ on, 40.275
- in synovial fluid in osteoarthritis, 39.253
- in thioglycollate-elicited peritoneal macrophages, 40.109
- Leukotriene C_4
behavioural and physiological effects of, 39.247
- determination of, by fluorometric detection combined with high-performance liquid chromatography, 39.119
- as essential intermediate in A23187-induced macrophage cytostatic activity against P815 tumour cells, 39.283
- involvement in platelet-activating factor-induced death in mice, 39.291
- peritoneal fluid concentration in patients with endometriosis, 39.43
- plasma levels in patients during an asthmatic attack, effects of hydrocortisone and aminophylline on, 40.285
- Leukotriene D_4 : determination by fluorometric detection combined with high-performance liquid chromatography, 39.119
- Linoleic acid
and biosynthesis of 13-hydroxyoctadecadienoic acid in platelets and leukocytes, 39.125
- dietary supplementation with
effects in rats fed a butter-rich diet of, 40.249
- factors affecting rat platelet thromboxane biosynthesis response to, 40.267
- in renal medulla from rats after a diet supplemented with cod liver oil, 39.329
- Linolenic acid see Dihomo-gammalinolenic acid; Gammalinolenic acid
- Lipopolysaccharide, calmodulin dependent free radical generation in human leukocytes by, 39.27
- Lipoproteins
high density, effects on cholesterol-fed rabbits of, 40.211
- high density, relationship between 6-keto-prostaglandin F_1 and, 39.159
- modulation of platelet thromboxane A_2 generation by, 40.57
- Lipoxygenase(s)
and A23187-induced macrophage cytostatic activity against P815 tumour cells, 39.283
- assay for studying the effects of agents on, 39.105
- in bovine adrenal fasciculata cells, 40.93
- effect of hypoxia in rat alveolar macrophages on, 39.69
- and glucose-induced insulin release from rat islets, 40.21
- inhibition of
by 1,4-dihydronaphthoquinones, 39.255
- by thiosulfates and 'cepaenes', 39.59
- effect on chronic liver injury in mice of, 40.67
- effects on human glioma cell lines of, 40.117
- localization in human granulosa cells from preovulatory follicles, 39.231
- in thioglycollate-elicited peritoneal macrophages, 40.109
- Liver
hepatoma cells, influence of inhibitors of eicosanoid metabolism on proliferation and tumour-host interaction of, 39.311
- injury to
delta-6-desaturase activity of microsomes from patients with, 39.39

effects of thromboxane A_2 and leukotriene inhibitors on, 40.67
 experimental massive hepatic cell necrosis model, arachidonate metabolites in tissue of rats in, 40.149
 protective effects of 9 β -methylcarbacyclin in galactosamine induction of, 40.73
 lipids, effects of various polyunsaturated fatty acids in diets of spontaneously hypertensive rats on, 39.207
 primary cancer of, effect of gamma-linolenic acid on, 40.199
 prostaglandin E_2 production by mouse Kupffer cells, effect of interferon γ on, 40.275
 Locomotor activity, effects of leukotriene C_4 on, 39.247

Lung(s)

bronchoalveolar leukotriene C_4 levels; and platelet-activating factor-induced death in mice, 39.291
 cardiopulmonary bypass: prostaglandins and extracorporeal circulation, 40.1
 damage following paraquat intoxication, involvement of prostaglandins in, 39.213
 pulmonary hypertensive response to foreign body microemboli, role of arachidonate metabolites in, 39.151
 thromboxane generation and reactivity to arachidonic acid in guinea-pig heart-lung preparation, 40.243
 transvascular albumin flux in, effects of neutrophils and phospholipase A_2 on, 39.167
see also Alveolar macrophages; Respiratory system

M

9 β -Methylcarbacyclin: protective effects in galactosamine-induced hepatocellular damage, 40.73
 Microemboli, foreign body, role of arachidonic acid metabolites in pulmonary hypertensive response to, 39.151
 Milk *see* Colostrum
 Mitochondrial matrix/cristae complexes of tumour cells: potential sites for anticancer therapy with polyunsaturated fatty acid analogues, 40.137
 Monoclonal antibody against glutathione peroxidase: characterization of 12-L-hydroperoxyeicosa-5,8,10,14-tetraenoic acid peroxidase in platelets, 39.75
 Muscle
 bovine aortic smooth, effects of oxysterols on arachidonic acid metabolism and prostacyclin synthesis in, 39.11
 protein synthesis and degradation in, prostaglandins and the control of, 39.95

N

Necrosis
 experimental massive hepatic cell, arachidonic acid metabolites in liver tissue in, 40.149
 ischaemic, effect of iloprost on spread of, 39.63
 Neutrophils
 arachidonic acid incorporation into phospholipids in, inhibition by phorbol ester of, 40.51
 arachidonic acid metabolism in, enhancement by A23187 of chemotactic peptide- and platelet-activating factor-induction of, 40.45
 arachidonic acid metabolism in, induction with snake venom phospholipase A_2 immune complexes and A23187 of, 39.227
 effects on transvascular albumin flux in isolated rabbit lungs of phospholipase A_2 and, 39.167
 Newborn
 defects in prostaglandin system of, 40.227
 effect in pigs of prostaglandin $F_{2\alpha}$ on breathing pattern of, 40.103
 Nicotine: effects on prostacyclin and thromboxane synthesis, 40.261
 Nileprost
 effects on platelet-activating factor-induced shock in mice, 40.157
 effects on stress- indomethacin- and ethanol-induced gastric mucosal damage, 40.13
 Nocloprost: effects on stress- indomethacin- and ethanol- induced gastric mucosal damage, 40.13

Non-steroidal anti-inflammatory drugs (NSAIDs)
 disorders induced by, prostaglandin deficiency in, 39.83
 and prostaglandin control of muscle protein synthesis and degradation, 39.95

see also Aspirin

Noradrenalin: restoration of platelet aggregation following aspirin- prostaglandin E_2 and Quin-2 AM-induced dysfunction, 39.141

Nose: recovery of prostaglandin production after inhibition by aspirin, 40.291

O

Oestradiol

effect on endometrial prostaglandin $F_{2\alpha}$ production is due to an inhibition of protein synthesis, 39.189
 effect on prostaglandin E_2 and $F_{2\alpha}$ in mid-pregnant rat uterus and at parturition, 40.27
 effect on uptake of calcium ions by uterine strips, 40.203
 OKY-046 (thromboxane A_2 inhibitor)
 effect on chronic liver injury in mice, 40.67
 effect on proliferation and tumour-host interaction of rat hepatoma cells, 39.311

Onions, antiasthmatic effects of, 39.59

Osteoarthritis of the knee joint: leukotriene B_4 - and prostaglandin E_2 -like activity in synovial fluid, 39.253

Ovary

chocolate cyst, prostaglandin and leukotriene concentrations in peritoneal fluid of patients with, 39.43
 localization of lipoygenases and cyclooxygenase in human granulosa cells from preovulatory follicles, 39.231
 Oxysterols: effects on arachidonic acid metabolism and prostacyclin synthesis in bovine aortic smooth muscle cells in culture, 39.11

Oxytocin, influence on uterine motility of, 40.203

P

Pancreas: lipoygenase-generated eicosanoids inhibit glucose-induced insulin release from rat islets, 40.21

Paraquat intoxication, involvement of prostaglandins in, 39.213

Parturition

arachidonic acid metabolism in amnion cells at, 39.303
 prostaglandin E_2 and $F_{2\alpha}$ production at, 40.27
 role of prostaglandins in, 39.1

Pentazocine tablets, crushed and suspended, pulmonary hypertensive response induced by injection of, 39.151

Peptic ulcer disease, prostaglandin deficiency in, 39.83

Peritoneal fluid: prostaglandin and leukotriene concentrations in patients with endometriosis, 39.43

N-Phenyllinoleamide: from toxic oil samples, cyclooxygenase products of arachidonic acid metabolism in mouse macrophages exposed to, 39.147

Phorbolmyristate acetate (PMA)

calmodulin dependent free radical generation in human leukocytes by, 39.27
 effect on arachidonic acid incorporation into phospholipids in human neutrophils, 40.51
 effect on chemotactic peptide- and platelet-activating factor-induction of eicosanoid synthesis in human neutrophils, 40.45

Phospholipase A_2

effects on transvascular albumin flux in isolated rabbit lungs of neutrophils and, 39.167
 as in vivo immunomodulator in peritoneal macrophages, 40.31
 snake venom, induction of endogenous arachidonic acid metabolism in human neutrophils with, 39.227

Physical exercise *see* Exercise

Platelet(s)

aggregation

ADP-induced, effects of dietary polyenoic fatty acids on, 39.31
 inhibition by aspirin of, 39.319
 noradrenalin-activated restoration of function, 39.141
 in rats fed a butter-enriched diet, 40.249
 arachidonic acid metabolism in

- assay for studying the effects of agents on, 39.105
modulation by polyunsaturated fatty acids during platelet-endothelial cell interactions, 39.197
thromboxane A_2 generation, modulation by human lipoproteins of, 40.57
thromboxane A_2 generation, in response to dietary linoleate, 40.267
thromboxane A_2 generation, sex-related differences in, 40.217, 40.267
defects in function of, 40.227
effects of very low fat diets enriched with fish or kangaroo meat on vasoconstriction and, 39.221
in hypertension at rest and during exercise, effects of bopindolol on, 40.125
12-L-hydroperoxyeicosa-5,8,10,14-tetraenoic acid peroxidase in, characterization of, 39.75
13-hydroxyoctadecadienoic acid biosynthesis in, 39.125
prostaglandins and extracorporeal circulation, 40.1
vitamin E and platelet eicosanoids in diabetes, 40.169
- Platelet-activating factor**
death in mice induced by
 influence of some prostaglandins and analogues on, 40.157
 involvement of leukotriene C_4 in, 39.291
stimulation of eicosanoid synthesis in human neutrophils by, 40.45
stimulation of glucose oxidation in uteri from pregnant rats by, 40.79
- Polyunsaturated fatty acids**
analogues of, tumour cell mitochondrial matrix/cristae complexes as potential sites for anticancer therapy with, 40.137
dietary, effects on ADP-induced aggregation of cat blood platelets of, 39.31
effect on fibroblast prostaglandin synthesis of, 39.135
modulation of prostanoid formation during platelet-endothelial cell interactions, 39.197
see also individual oils
- Posture:** influence on urinary excretion of prostaglandins during infancy and childhood, 39.295
- Pregnancy**
duration of, effects of fish and arachis oils on, 40.255
glucose oxidation in rat uteri during, stimulation by platelet-activating factor of, 40.79
lipid composition of human colostrum in mothers having followed butter- or margarine-free diets, 40.161
prostaglandin E_2 and $F_{2\alpha}$ in mid-pregnant rat uterus and at parturition, 40.27
see also Parturition
- Probenecid:** effect on the urinary excretion of thromboxane B_2 and prostaglandin E_2 , 39.323
- Progesterone**
antiprogester stimulation of uterine prostaglandin synthesis in vitro, 40.191
effect on prostaglandin E_2 and $F_{2\alpha}$ in mid-pregnant rat uterus and at parturition, 40.27
inhibitory effect on endometrial prostaglandin $F_{2\alpha}$ production is due to an inhibition of protein synthesis, 39.189
- Prostacyclin (Prostaglandin I_2)**
analogue DC-PGI $_2$ of, effect of macrophage cytokines on treatment of tumour cells with, 40.163
analogue 9 β -methylcarbacyclin of, protective effects in galactosamine-induced hepatocellular damage of, 40.73
in animals fed a butter-enriched diet, 40.249
defects in prostaglandin system involving, 40.227
effects of 3-amino 4,6-diarylpyridazines on, 39.19
effects of nicotine and cotinine on, 40.261
effects of oxysterols on, 39.11
effects of tea and coffee beverages on, 40.63
impotence and, 40.239
plasma cholesterol levels and age-associated reduction in, 39.65
and platelet-activating factor-induced death in mice, 40.157
relationship between high density lipoprotein cholesterol and, 39.159
thromboxane A_2 -PGI $_2$ balance, effect of aminopyridazine derivatives on, 40.143
in umbilical blood vessels, 39.239
- Prostaglandin deficiency,** 39.83
- Prostaglandin E_1**
analogue (15S)-15-methyl-PGE $_2$ of, effect on stress-induced methacin- and ethanol-induced gastric mucosal damage of, 40.13
impotence and, 40.239
platelet dysfunction induced by, effect of noradrenalin on, 39.141
and platelet-activating factor-induced shock in mice, 40.157
- Prostaglandin E_2**
in amnion cells at term, 39.303
analogue ent-11-epi-15-epi-PGE $_2$ methyl ester of, biological activity and anti-prostaglandin effects of, 39.91
in diabetic ketoacidosis, 40.39
in fibroblasts, inhibitory effect of polyunsaturated fatty acids on, 39.135
in gastroduodenal tissue following intragastric acid perfusion, 39.277
in Kupffer cells, effect of interferon γ on, 40.275
in mid-pregnant rat uterus and at parturition, 40.27
in squamous cell carcinoma of the larynx, 39.53
in synovial fluid in osteoarthritis, 39.253
treatment of tumour cells with, effect of macrophage cytokines on, 40.163
uptake by reno-medullary collecting tubule cells from the spontaneously hypertensive rat and identification of an intracellular PGE $_2$ receptor/binding protein, 39.177
uptake by uterine tissues and blastocysts, 39.267
urinary excretion of
 in diabetes mellitus, 39.47
 during infancy and childhood, 39.295
 effect of probenecid on, 39.323
 in the isolated perfused rat kidney, 39.261
 uterine, inhibitor purified from human decidua of, 40.223
- 6-keto-Prostaglandin $F_{1\alpha}$**
plasma levels during diabetic ketoacidosis, 40.39
quantitation by high pressure liquid chromatography, 39.131
relationship between high density lipoproteins and, 39.159
synthesis in isolated perfused rat kidney and urinary excretion of, 39.261
synthesis in squamous cell carcinoma of the larynx, 39.53
urinary excretion during infancy and childhood, 39.295
- 6-oxo-Prostaglandin $F_{1\alpha}$**
biosynthesis of, in mouse macrophages exposed to N-phenyl-linoleamide from toxic oil samples, 39.147
uterine synthesis of, effects of antiprogesterin on, 40.191
- Prostaglandin $F_{2\alpha}$**
binding to corpora lutea membranes of, 40.181
and breathing pattern in newborn pigs, 40.103
in endometrium, inhibitory effect of progesterone on, 39.189
in fibroblasts, inhibitory effect of polyunsaturated fatty acids on, 39.135
in hepatoma cells, effects on cell proliferation of, 39.311
in isolated perfused rat kidney and urinary excretion of, 39.261
lung and plasma and serum levels of, following paraquat intoxication, 39.213
in mid-pregnant rat uterus and at parturition, 40.27
uptake by rabbit uterine tissues and blastocysts of, 39.267
urinary excretion during infancy and childhood, 39.295
uterine, effect of oxytocin on, 40.203
- Prostaglandin I_2 see Prostacyclin**
- Protein kinase C**
effect on incorporation of arachidonic acid into phospholipids in human neutrophils, 40.51
negative regulatory role in platelet-activating factor-stimulated eicosanoid synthesis in human neutrophils, 40.45
- Protein synthesis**
inhibition of, and inhibitory effect of progesterone on endometrial prostaglandin $F_{2\alpha}$ production, 39.189
inhibition of, protective effects of 9 β -methylcarbacyclin in galactosamine-induced hepatocellular damage, 40.73
muscle, prostaglandins and the control of, 39.95

Q

Quin-2 AM-induced platelet dysfunction, effect of noradrenalin on, 39.141

R

- Radioprotection, leukotriene C₄-induced, 39.247
 Rectal temperature, effects of leukotriene C₄ on, 39.247
 Respiratory system
 adrenergic-prostaglandin interactions in, 40.85
 prostaglandin F_{2α} and breathing pattern in newborn, 40.103
 see also Alveolar macrophages; Asthma; Larynx; Lung(s)
 Rheumatoid arthritis: effect of dietary fish oil on the content of
 dihomo-gammalinolenic acid in plasma phospholipids,
 40.9

S

- Sex-related differences: in platelet thromboxane A₂ generation,
 40.217, 40.267
 Snake venom phospholipase A₂, induction of endogenous
 arachidonic acid metabolism in human neutrophils with,
 39.227
 Sodium restriction: influence on urinary excretion of prostaglan-
 dins during infancy and childhood, 39.295
 Squamous cell carcinoma: of the larynx, tumour and peri-tumour
 prostaglandin synthesis in, 39.53
 Stomach
 prostaglandin deficiency and disorders of, 39.83
 prostaglandin E₂ formation in the rat following intragastric
 acid perfusion, 39.277
 stress- indomethacin- and ethanol-induced mucosal damage to,
 effects of prostaglandin analogues on, 40.13
 Sunflowerseed oil, dietary
 effects on blood pressure and serum lipids in spontaneously
 hypertensive rats, 40.17
 effects on liver lipids thromboxane formation and blood pres-
 sure in spontaneously hypertensive rats, 39.207
 Superoxide anion *see* Free radical generation
 Synovial fluid: of patients with osteoarthritis of the knee,
 leukotriene B₄ and prostaglandin E₂-like activity in,
 39.253

T

- Tea
 influence on prostacyclin synthesis by rat aorta, 40.63
 as potent thromboxane formation inhibitor, 40.281
 Thioglycollate-elicited peritoneal macrophages, superoxide anion
 and leukotriene B₄ production in, 40.109
 Thiosulfinates: inhibition *in vitro* of 5-lipoxygenase and
 cyclooxygenase, 39.59
 Thromboxane A₂
 age-associated reduction in, plasma cholesterol levels and,
 39.65
 in cardiac tissue, effects of 3-amino 4,6-diaryl-pyridazines on,
 39.19
 effects of a butter-enriched diet on, 40.249
 effects of nicotine and cotinine on, 40.261
 in guinea-pig heart-lung preparation, 40.243
 inhibitors of, effects on chronic liver injury of, 40.67
 platelet
 modulation by human lipoproteins of, 40.57
 in response to dietary linoleate, 40.267
 sex-related differences in, 40.217
 and platelet-activating factor-induced death in mice, 40.157
 prostaglandin I₂-TXA₂ balance, effect of aminopyridazine
 derivatives on, 40.143
 renal, in diabetes mellitus, 39.47
 Thromboxane B₂
 calcium ionophore enhancement of chemotactic peptide- and
 platelet-activating factor-induction of, 40.45
 inhibitor in green tea leaves of, 40.281
 lung and plasma and serum levels of, following paraquat in-
 toxication, 39.213
 in mouse macrophages, following exposure to N-phenyl-
 linoleamide from toxic oil samples, 39.147

- plasma levels during diabetic ketoacidosis, 40.39
 plasma and serum levels in hypertension at rest and during
 exercise, effect of bopindolol on, 40.125
 in platelets, inhibition by aspirin of, 39.319
 in spontaneously hypertensive rats during various diets, 39.207
 in squamous cell carcinoma of the larynx, 39.53
 urinary excretion of
 in diabetes mellitus, 39.47
 during infancy and childhood, 39.295
 effect of probenecid on, 39.323
 in isolated perfused rat kidney, 39.261
 Toxic oil syndrome: cyclooxygenase products of arachidonic acid
 metabolism in mouse macrophages exposed to N-phenyl-
 linoleamide, 39.147
 Tracheal fluid, reduction by high frequency oscillatory ventila-
 tion of 15-hydroxyicosatetraenoic acid in, 40.177
 Triglycerides
 human endometrium, and uptake distribution and release of
 arachidonic acid, 39.111
 in spontaneously hypertensive rats fed various diets, 39.207,
 40.17
 Tumour(s)
 leukotriene C₄ as essential intermediate in A23187-induced
 macrophage cytostatic activity against, 39.283
 macrophage cytokines render WEHI-3B cells susceptible to
 cytostasis by prostaglandins, 40.163
 mitochondrial matrix/cristae complexes as potential sites for
 anticancer therapy with polyunsaturated fatty acid
 analogues, 40.137
 see also individual tumours

U

- Umbilical cord: prostacyclin producing activity of blood vessels
 in adrenergic innervated and non-innervated portions,
 39.239
 Urinary excretion
 of prostaglandins, 39.261
 of prostaglandins, influence of age sodium restriction and pos-
 ture on, 39.295
 of thromboxane B₂ in diabetes mellitus, 39.47
 of thromboxane B₂ and prostaglandin E₂, effect of probenecid
 on, 39.323
 Uterus
 leiomyoma, prostaglandin and leukotriene concentrations in
 peritoneal fluid of patients with, 39.43
 mid-pregnant and parturient, prostaglandin E₂ and F_{2α} in,
 40.27
 pregnant rat, stimulation by platelet-activating factor of
 glucose oxidation in, 40.79
 prostaglandin synthesis in
 antiprogesterin stimulation of, 40.191
 effects of oxytocin on, 40.203
 inhibitor purified from human decidua of, 40.223
 prostaglandin uptake by blastocysts and, 39.267
 see also Endometrium

V

- Vasoconstriction and vasodilation
 age-associated reduction of prostacyclin and thromboxane syn-
 thesis is inversely related to plasma cholesterol levels,
 39.65
 effects of arachidonic acid on heart-lung preparation of guinea-
 pig, 40.243
 effects of very low fat diets enriched with fish or kangaroo
 meat, 39.221
 and increased renal thromboxane A₂ synthesis in diabetes mel-
 litus, 39.47
 Ventilation *see* High frequency oscillatory ventilation
 Vitamin E: and platelet eicosanoids in diabetes mellitus, 40.169
